

**IN THE SPECIFICATION**

Please replace paragraph [0004] with the following amended paragraph:

-- [0004] It is another object of the present invention to provide a static discharge protection module of LCD display control board of portable computer which comprises

[[a]] an LCD display control board disposed in the portable computer and having an inverter, a printed circuit board and a control circuit for driving a LCD display of the portable computer;

an insulation sleeve into which the LCD display control board is inserted for avoid the contacting of a housing and components of the portable computer with the LCD display control board; and

a metal foil adhered to the insulation sleeve for collecting static ~~to conduct to~~ and conducting said static to a ground.--

Please replace paragraph [0005] with the following amended paragraph:

-- [0005] It is another object of the present invention to provide a[[.]] static discharge protection module of LCD display control board of portable computer in which the metal foil is copper foil or aluminum foil.--

**Applicant:** Chen et al.  
**Application No.:** 10/619,064

Please replace paragraph [0006] with the following amended paragraph:

-- [0006] It is another object of the present invention to provide a[[. a.]] static discharge protection module of LCD display control board of portable computer in which the metal foil is pressed on the insulation sleeve near the indicator end by automatic equipments and a mold to save human labor of adhering by hand without using adhesive in one embodiment.--
